

2010 Working with Groups

Training for Alcohol and Other Drug Workers

Training overview

This two-day workshop is designed to introduce workers to the planning, coordinating and running of groups for clients across a range of settings. Areas to be covered include: the practicalities of running groups, the stages of group development, awareness of group dynamics and the roles of group members. The emphasis will be on psycho-educational groups utilising an experiential approach. Issues related to running psychotherapeutic or insight-oriented groups will NOT be addressed. A generic national competency, "Plan and conduct group activities", informs the content of this two-day workshop.

This workshop targets workers with little or no background in group interventions or prior group training, but assumes prior knowledge and skills in counselling, interviewing and assessment.

Trainers

Turning Point Alcohol and Drug Centre staff conducting the training have extensive clinical and training experience.
